

WERKS®

Activity Racks

Custom Designs

Usage

This simple system of segregated storage is modular and versatile. Excellent for parts storage and despatch systems, the angled storage bins provide high visibility of contents, and with options of colour-coding and labelling, castors and handles, functionality is further improved.

Features & Benefits

- Heavy duty steel powder coated framework
- Comes standard with 16 x 52L Recycled Black Stack & Nest Containers
- Optional locking castor kits available to facilitate easy movement around the workplace
- Multiple designs available to work with your requirements

Ideal for:

Warehouse | Workshop | Retail | Mining | Servicing/Maintenance | Agriculture

Optional
Locking
Castors
