

Enviro Skate

Usage

A convenient dolly made to suit our Stack and Nest Containers, enabling heavy containers to be moved efficiently around the workplace with minimal effort.

Using a tub, this dolly has many uses - including as a meat tub dolly.

Features & Benefits

- Industrial strength - made from heavy duty, durable recycled PP material
- Zinc plated wheels with bearings
- Stackable for secure storage when not in user
- Rear wheels with brakes to secure when stopped on an incline
- Rounded corners minimise damage to walls and furniture
- Load rating 600kg (150kg per castor)
- Suitable for a variety of crates including Stack & Nest Crates 32L, 52L, 68L
