

STURGO®

Hand Stacker

Usage

Hand Stackers are perfect for lifting items from shelves (or other raised surfaces) and moving them throughout the workplace. This unit features rollers on the upper handle allowing the unit to be laid down for easy loading onto vehicles.

Features & Benefits

- Rolls through standard doorways in an upright
- Construction from durable steel and lightweight aluminium frame
- Operated by hand winch
- Forks can be inverted to provide 2 lift heights
- Complies with ISO 3691-5:2014
