

STURGO®

Spring-Loaded Pallet Positioner

Usage

Suited to any workplace where loading and unloading palletised goods is required. Load height is automatically adjusted as load is increased and decreased, eliminating user strain related to bending and lifting.

Features & Benefits

- Simple, robust scissor lift mechanism
- Heavy duty compression springs with shock absorbers dampen vertical movement of load
- Built in forklift pockets
- Turntable top allows load rotation
- Durable galvanised construction
- Optional Rotation Lock allows top to be secured in fixed position
- Optional Adjustable Feet for uneven surfaces and to allow pallet jack transportability
- Modifications available: Alternative Springs, Heavy Duty Castor Kit, Fixed Square Top

Ideal for:

Transport/Logistics | Warehouse | Workshop | Construction | Mining | Servicing/Maintenance | Agriculture | Hospitality/Food Services | Health/Medical

Specifications

Model 16810072 - Pallet Positioner

Platform Diameter: 1100mm

Height Range: 230mm (compressed) - 700mm (extended)

Load Capacity: 2000kg

Unit Weight: 160kg

Model 13860051 - Rotational Lock

Model 13860074 - Adjustable Feet
