

STURGO®

Spring Base Mesh Trolleys

Usage

Designed to relieve users of back strain, the in-built spring-loaded compression base adjusts according to the load weight, reducing the need to bend and lift. Especially well-suited, but not limited to, laundry and linen purposes in hospitality and cleaning, picking and packing applications in the retail industry.

Features & Benefits

- **Durable** galvanised construction
- **Ventilation** and content **visibility** with mesh sides and perforated base
- Excellent **manoeuvrability** via thoughtful wheel configuration

Spring Base Mesh Trolleys

Specifications

Model 18300027CNR - Small, Corner Springs

Model 18300027CTR - Small, Centre Spring

Dimensions: 800L x 600W x 810H (mm)

Load Capacity (corner springs): 60kg

Load Capacity (centre spring): 100kg

Wheel Diameter: 125mm (corner mount)

Unit Weight: 35kg

18300027CNR

18300027CTR

Model 18300030CNR - Medium, Corner Springs

Model 18300030CTR - Medium, Centre Spring

Dimensions: 1050L x 700W x 850H (mm)

Load Capacity (corner springs): 60kg

Load Capacity (centre spring): 100kg

Wheel Diameter: 160mm (jockey mount)

Unit Weight: 48kg

18300030CNR

18300030CTR

Model 18300033CNR - Large, Corner Springs

Model 18300033CTR - Large, Centre Spring

Dimensions: 1250L x 700W x 850H (mm)

Load Capacity (corner springs): 60kg

Load Capacity (centre spring): 100kg

Wheel Diameter: 160mm (jockey mount)

Unit Weight: 53kg
