

HEAVY DUTY JOB SITE TOOLBOX

An extra-tough storage solution built to withstand the demands of any job site. Designed for durability, security, and ease of transport, these toolboxes keep your tools and equipment safe and accessible wherever you need them.

- **Robust.** Constructed from 1.5mm gauge steel for superior strength and durability.
- **Durable.** Powder-coated yellow finish for long-lasting protection against harsh job site conditions.
- **Solid.** Built tough to withstand heavy use on-site, in workshops, or on ute trays.
- **Transportable.** Equipped with forklift access channels for effortless maneuverability.
- **Versatile.** Suitable for job sites, garages, and workshops.
- **Customisable.** Optional 100kg castor wheels for added mobility.
