

# Container Ramps

## Usage

Container ramps allow forklift and trolley access to containers for the safe loading and unloading of goods.

## Features & Benefits

- Fully reinforced underside to eliminate steel fatigue
- Handles most general applications with ease
- Enamel paint finish in safety yellow
- Complies with Australian Standards
- Supplied with instruction manual, certification and risk assessment
- Folding Lip Model: self-levelling lip allows for full load capacity when on slightly uneven ground. The fold up lip allows access to the fork slippers for transport.

## Specifications
