

Drum Racking Bund

Usage

Racking Bunds allow you to store drums in your pallet racking whilst maintaining safety compliance.

Specifications

Model 10220050

Dimensions: 1300mmL x 1300mmW x 260mmH

Safe Working Load Capacity: 100kg

Bund Capacity: 220L

Unit Weight: 15kg

Features & Benefits

- Made from polymer materials to meet stringent AS/NZ standards
- Suitable for use with standard pallet racking
- Exceeds UV performance requirements in tough environments
- Comes fitted with bung
- Long service life with high impact resistance and resistance to cracking and degradation
- Designed with 220L bund capacity to safely store up to 4 x 205L drums
- Save valuable floor space in your work areas
