

# Goods Cage - Forklift & Crane Attachment

## Usage

Goods cages are designed to safely transport and store loose or palletised goods by crane or forklift. Safe for use in mining and heavy industrial environments!

## Features & Benefits

- Suits 1200mm square pallet size
- Fully opening gate for easy loading and unloading
- Cage is fitted with 4 point crane lugs and forklift pockets
- Optional Lifting Frame available - enables single point lifting when head height is an issue
- Zinc finish
- Stacking feet allow cages to be stacked 3 high (when empty) or 2 high (when loaded)
- Supplied fully assembled
