

POLYETHYLENE BUNDING PALLET UNITS

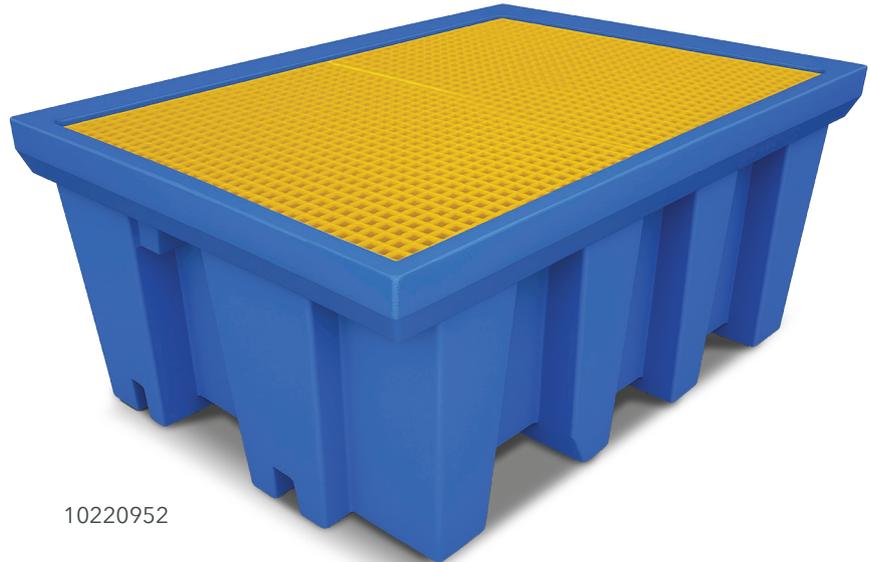

Made in Australia and proven in the field, these units are built to stand up to the harsh Australian sun and elements, but are easy to store, transport and clean.

- **Tough.** Robust, UV-stable polymer construction with engineer-certified load rating.
- **Practical.** Removable fibreglass grates for easy cleaning.

- **Nestable.** Saves space during transport and while in storage.
- **Transportable.** Moulded forklift pockets for easy transportation.
- **Compliant.** Fully compliant bund capacity.
- **Protective.** Add PVC zipped covers with supporting frames.
