

# METAL BUNDING PALLET UNITS

Manufactured from fully galvanised metal and built to handle the harshest weather conditions, these units are fully compliant with regulations for bunding containers of liquid and can be transported by forklift (when empty).

## Bunding Units

- **Compliant.** Designed for bunding flammable liquids.
- **Practical.** Removable grates for easy cleaning.

## Outdoor Storage Units

- **Enclosed.** For dangerous goods storage outdoors.
- **Smart.** Ventilated, with a cambered roof for water run-off.
- **Capable.** Heavy-duty grate and ample bund capacity.
- **Accessible.** 270° foldback doors with latch.
- **Safe.** Comes with safety signage.
