

Low Profile Bunded Pallets

Usage

The lower profile of these bunded pallets makes it easier to load and unload drums. A connector kit can be used to join bunds together to increase your bund capacity.

Features & Benefits

- Ideal for storing 205L drums
- UV stable
- Tough poly construction which is resistant to most chemicals
- Built-in Handles
- Sealed bung point
- One-piece design

Ideal for:

Transport/Logistics | Warehouse | Workshop | Retail | Construction | Mining | Servicing/Maintenance | Agriculture | Hospitality/Food Services | Health/Medical | Office/Education | Cleaning
