

Recycled Plastic Stack & Nest Containers

Usage

Being the most commonly used storage crate in Australia and New Zealand is proof of the durability and versatility of the Stack & Nest Container range. Designed and manufactured for use in warehousing, distribution, engineering, automotive, and materials handling industries.

Features & Benefits

- UV resistant polyethylene recycled plastic construction
- **Not suitable** for food handling
- Recycled version only available in black (see the Stack & Nest Containers page for food-grade, coloured versions)
- Can be stacked when full, or nested when empty, saving storage space
- Optional lids available for content protection and security
- Mobile skate dollies available for easy transport
-
