

# Stack & Nest Containers (Food Grade)

## Usage

Being the most commonly used storage crate in Australia and New Zealand is proof of the durability and versatility of the Stack & Nest Container range. Designed and manufactured for use in warehousing, distribution, engineering, automotive, materials handling and food industries.

## Features & Benefits

- UV resistant polyethylene plastic construction
- Virgin plastic is safe for food handling
- Can be stacked when full, or nested when empty, saving storage space
- Optional lids available for content protection and security
- Mobile skate dolly's are available for easy transport
- Stack & Nest Containers are also available in recycled plastic (these are NOT suitable for food handling)
