

RETRACTABLE BELT BARRIERS

(WALL MOUNT AND MAGNETIC)

Wall Mount Retractable Belt Units are designed for effective crowd control, access restriction, and queue management in both indoor and sheltered outdoor spaces. Built for reliability and ease of use, these units provide flexible belt lengths and mounting options – making them ideal for workplaces, events, and facility management.

- **Versatile.** Choose from wall-mount or magnetic-mount options for flexible installation across various surfaces.
- **Durable.** Constructed with a tough PVC outer casing and a stainless-steel internal spring for better weather resistance in outdoor environments.

- **Visible.** Available in high-contrast Red/White or Black/Yellow diagonal belts to enhance safety and visibility in restricted areas.
- **Adjustable.** Extendable belts available in 5 m or 10 m lengths to adapt easily to different space requirements.
- **Safe.** Equipped with a built-in brake feature to ensure controlled belt retraction and prevent sudden recoil during use.
