

WHEELIE BIN LIFTER/TIPPER

The Wheelie Bin Lifter/Tipper has been designed and manufactured with the following features to optimize operator ergonomics and remove the manual handling risks traditionally associated with the emptying of wheelie bins.

- **Class-leading safety** Two handed operation for full operator engagement.
- **Easy to manoruvre** Large D-shaped handles allow operators of all heights to manoeuvre ergonomically.
- **Australian Reliability** Designed and manufactured in Australia, for Australian conditions.
- **Easy to transport for hire and construction industries** Dedicated Forklift pockets allow for safe lifting on and off vehicles and on construction sites.
- **Environmentally Friendly** Solar Power option available.

We have a range of modifications to choose from. Talk to our friendly team on 1300 305 314 about the options and build your perfect bin tipping solution.
