WERKS®

Cleanspan Shelving

Usage

WERKS® Cleanspan is a high quality chrome wire adjustable shelving system designed for the medical and hospitality markets. Available in static, mobile, overhead rail high density storage units, and a range of trolleys with an additional list of accessories including rear and side ledges, dividers, directional handles, corner buffers and product labelling. A versatile, high quality system.

Features & Benefits

- Suited to wet areas
- Superior hygiene for improved infection control
- Provides extra airflow
- Fast Assembly
- Modular system makes custom configuration easy (bridging clips create corner units)
- Replacement parts available
- Lightweight yet sturdy construction
- Chrome plated finish
- Load Capacity: 150kg/shelf
- Accessories available: additional shelves, rear and side ledges, dividers, bridging clips, ticket stripping
- Conforms to Australian Health Standards
