

WERKS®

Heavy Duty Drawer Cabinet - Model 41

Usage

WERKS® Heavy Duty Drawer Cabinets are designed for seriously heavy loads!

All models in this range are capable of holding a load capacity of 1.65 tonnes.

The floor alone carries up to 400kg (evenly spread load). We recommend they are anchored to the wall or floor.

Features & Benefits

- Extremely stable, welded steel constructed body with hard soldering at the corners
- Body with centre separating wall
- Impact and scratch resistant coating
- Smooth fronts with flushed doors- opening angle of over 200 degrees
- Connecting rods throughout
- Double wall strengthened doors
- Light grey body with blue drawers and doors
- Can be retrofitted if required

- Galvanised shelves with loading capacity of 160kg (evenly spread load)
- Adjustable 25mm grid
- Triple bolt security cylinder lock (additional group or main keys available)
