# Slotted Louvre Panels

## Usage

WERKS® Panel Systems are used for storing, organising and maintaining the safety of your warehouse, workshop or yard; they also assist in keeping track of your equipment as you can easily identify if items are missing or damaged. Reduce time spent looking for tools or equipment in a disorganised mess – Backsafe Australia can help you design the best panel system to suit your workplace and improve efficiency.

## Features & Benefits

- Steel panel 1.2mm thick, chamfered all round, strengthened with specially shaped bearers
- Louvre/Slot size: 50mmW x 20mmH
- Concealed screw holes
- Suitable for wall mounting
- For parts storage, mount Supra Bins onto the panels
